

My Friends

My group of friends at school
Is really, really cool.
Jack and Jack are a great two-pack,
With Rylan I'd go to a desert island,
Nash is better than having cash.
With all my buds, I'm super strong
And this is where I belong.

We play hard
In Stevenson's yard.
4-square, 9-square
We don't really care.
We can play all day long,
And this is where I belong.

We met each other when we were 6 and 7
And now we're almost 9 and we scream "six, seven."
This is how friendships are made.
We all belong in third grade!
